4. FIRST AID MEASURES

First Aid Measures

General Advice	Provide this SDS to medical personnel for treatment.
Eye Contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin Contact	Wash off immediately with soap and plenty of water. Get medical attention if irritation develops or persists. Wash contaminated clothing before reuse.
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center or doctor/physician if you feel unwell.
Ingestion	Rinse mouth. Do not induce vomiting without medical advice. If conscious give 2 glasses of water to dilute. Get medical attention.

Most important symptoms and effects

Symptoms	May cause discomfort if swallowed. Eye, skin, and/or respiratory irritation.
-----------------	--

Indication of any immediate medical attention and special treatment needed

Notes to Physician	When inhaled, fine barium sulfate dust can form harmless nodular granules in the lungs (baritosis). Baritosis produces no symptoms of bronchitis or emphysema. Lung function is not affected, although some patients complain of dyspnea upon exertion.
